

Women Only Track Days come to Cheshire

Ex Chairman of the Classic Sports Car Club and sports car racing driver Sarah Hutchison has brought her skills back home to Cheshire.

Sarah, an architect by trade was one of the first women to instruct drivers at Porsche GB and has worked at all of the top racing circuits in the UK.

The reason she started this business was her main passion to teach people to drive correctly in these top branded cars. Sarah says 'I see guys constantly turn up at track days with their partners and powerful cars but

the girls are too timid to venture on to the track when the 'boys' are speeding around, exuding testosterone!' However more importantly, she explained that it is the government that are in the next few years enforcing that companies have to comply with legislation that will cover safety of their high flying staff whilst driving on business - even if they are using their own cars. Knowing how to handle a powerful car - or a dangerous situation - can reduce insurance costs and reduce down time for valuable staff

plus who wouldn't want to enjoy a fantastic day in some of the best cars you can buy!

Prestige Track Days is all about safety and enjoyment. 'We can arrange private hire or group parties for weddings, birthdays etc, it's great fun'.

For more details Contact Sarah Hutchison on 07798 771962. The first event in Cheshire will be in November 2008
